

Sebastian Zelonka

Design Engineer

Buenos Aires, Argentina | dev@sebazelonka.com

sebazelonka.com | github.com/sebazelonka | [LinkedIn](#)

Design engineer with a background in graphic and product design. I build React interfaces and design systems, connecting interaction design with production code. My work spans component architecture, accessibility, developer documentation and AI workflows that help teams contribute to an existing codebase.

Core skills React, TypeScript, HTML, CSS, design tokens, component APIs, Storybook, accessibility, rapid prototyping and design-engineering collaboration.

EXPERIENCE

Brubank

Aug 2025 - Present

Frontend Engineer

- Implement AI workflows that help teams across the company work independently in the repository.
- Maintain and extend internal tools, mainly the backoffice used by CX operators and business account executives.
- Develop foreign trade flows for incoming and outgoing transactions between customers' own accounts and third-party accounts.

React / TypeScript / Chakra UI

Making Sense | SeCO

Mar 2024 - Aug 2025

Senior Design System Engineer

- Led design system development, defined the stack and partnered with designers to translate design tokens into UI.
- Built custom React components and styles using shadcn/ui, and maintained Storybook.

React / TypeScript / shadcn/ui / Remix / Storybook

Making Sense | Vetsource

Nov 2022 - Feb 2024

Senior Design System Engineer

- Led Kibble from an empty repository to a design system used across product teams. Defined the React and TypeScript architecture and a Sass layer for non-React products.
- Established component APIs, design tokens, Storybook documentation and package delivery. Configured GitLab release workflows and publishing to the internal registry.

React / TypeScript / Vite / Sass / Storybook / GitLab

[Kibble case study](#) | [Live Storybook](#)

Making Sense

Nov 2021 - Nov 2022

UX Developer

- Connected design and engineering through the architecture and implementation of design systems.

React / TypeScript / HTML / CSS

EXPERIENCE CONTINUED

ank

Sep 2020 - Oct 2021

Frontend Developer

- Created and maintained shared app components. Built the QR payment flow from its initial routes through the main application layout.

React Native / TypeScript / Apollo GraphQL / Node.js / Jest

ank

May 2020 - Sep 2020

Senior UX Designer

- Partnered with the product team to refine user behavior, key journeys and application flows.

Increase

Feb 2019 - Feb 2020

Web Designer

- Prototyped with React and Styled Components. Created and maintained design systems consumed by the frontend team.

React / Styled Components / Storybook / Jest

Dexdex

Jun 2018 - Oct 2018

UX/UI Designer / Frontend Developer

- Designed and implemented dexdex.io and easytrade.io, including UX and UI for the Easytrade widget.

Onapsis

Aug 2016 - Jun 2018

UX/UI Designer

- Worked with product management on product definition and interaction flows. Supported frontend implementation with HTML and CSS.

SELECTED EARLIER EXPERIENCE

Wolox - Product Designer, Oct 2015 - Aug 2016

Aquicore - UX/UI Designer / Frontend Developer, Oct 2013 - Mar 2015

Zauber / Flowics - UX/UI Designer / Frontend Developer, Aug 2011 - Dec 2013

UTN FRBA - Usability & Accessibility Course Collaborator, 2012

GlobalLogic - UX/UI Designer, Sep 2010 - Aug 2011

Freelance - UX/UI Designer, Jan 2008 - Feb 2019

EDUCATION

Degree in Graphic Design

Universidad de Buenos Aires, FADU | 2003 - 2008

University Expert in Accessibility and Usability

Universidad Tecnológica Nacional, FRBA | 2011
